About This Game

ABOUT THE DEVELOPERS

JimJams games are a small, indie development team with a love for the retro games of the '80's and '90's. We only develop games that embrace that era, aiming to provide true classic styled gaming, with a massive retro feel, maybe with a slight hint of what these games would have been with a little more processing power.

We don't aim to develop AAA games, but simply to bring our passion for a time gone by to those who love truly classic themed and inspired games. If this is a genre and era that you love, then our games are for you.

ABOUT BEES KNEES

Bees Knees is a cartoon retro-styled garden based shooter. (Or CRSGBS - although we don't think that will ever catch on as an acronym), for all ages.

Take control of the state of the art, Robotically Assisted Pneumatic Horticultural All Environment Levitator (Often simply called R.A.P.H.A.E.L), This advanced prototype, leads the gardening world's battle against a variety of "angry" bugs, annoying

spiders, very hostile hornets and terrible weather. Protect and nurture your flowers from the ravages of the outdoors while providing cover for your busy bee as it collects its daily quota of honey while facing ever increasing challenges.

Features.

Limitless gameplay.
Thousands of angry insects
Classic Retro-styled gaming
Custom controls
Controller support
